

WELCOME TO CORFU

 Sunsail®

The logo for Sunsail features a stylized red circle with a blue diagonal line through it, resembling a sail or a stylized letter 'S'. To the right of the icon, the word "Sunsail" is written in a bold, blue, sans-serif font. A registered trademark symbol (®) is located at the top right corner of the word "Sunsail".

This eGuide was made by Sunsail co. and is meant to be used for informational purposes only as well as to give you general information and general understanding of the region. By using this eGuide you understand that some changes in information are possible and that this eGuide is no substitute for a full Chart and Area Briefing or official charts issued by the government.

WELCOME TO SUNSAIL CORFU

“ Having sailed all over the world for the last 25 years I can honestly say that the idyllic emerald green and turquoise blue waters here in the Northern Ionian are some of the most beautiful you will ever encounter. Whether you are here for fun and excitement or just to lie back and relax, the Team here at Sunsail Corfu are ready to help you make your holiday aboard an enjoyable and memorable one. ”

Johnny Adams, Base Manager

MARINA GOUVIA

Corfu Yacht Base is located in Marina Gouvia, app. 6km North of Corfu Town and 9km from its International Airport.

Gouvia Marina was the first privately owned marina in Greece.

During the 17th Century Venetian seamen considered Gouvia as an ideal location for a naval station and shipyards, of which the remains can still be seen today. Make sure you look out for the remains of the Venetian Shipyard on egress and entry to the marina.

Greece is +2 hours UTC so please adjust your watches accordingly.

GOUVIA MARINA FACILITIES

Toilets & Showers - Free to use and open 24 hours

Water & Electricity on Docks

Free Wifi is available in all cafes and restaurants located within the marina. The marina also has its own pre-pay Wifi

Laundry - located at the toiled block close to Area C

ATM - There are two ATM machines located in the marina. One can be found near the new supermarket, and one near "Maestros" caffee

Car Parking Spaces -leave your car in one of the designated areas

Swimming Pool - The Marina swimming pool is located close to our office

Mini-Market - The "New Super Mini Market" is located adjacent to the swimming pool

Restaurants and Cafes - There are a variety of restaurants and cafes to choose from within the marina

Wed / Closed
Thu - Sat / 08:30 - 16:30
Sun / 08:30 - 14:30

UPON ARRIVAL

CHECK IN AT OUR RECEPTION

When you arrive in Marina Gouvia, please go to the Sunsail Reception where our team will help you check in. Please ensure you have the following items ready:

- Passport or Identity Card for you and all the crew
- Skippers Licence
- Mobile phone number

You'll be required to sign the Charter Agreement and Yacht Damage Waiver (YDW). We do not ask for a YDW security payment and instead ask you to sign an agreement that a payment will be taken on your return should any damage occur.

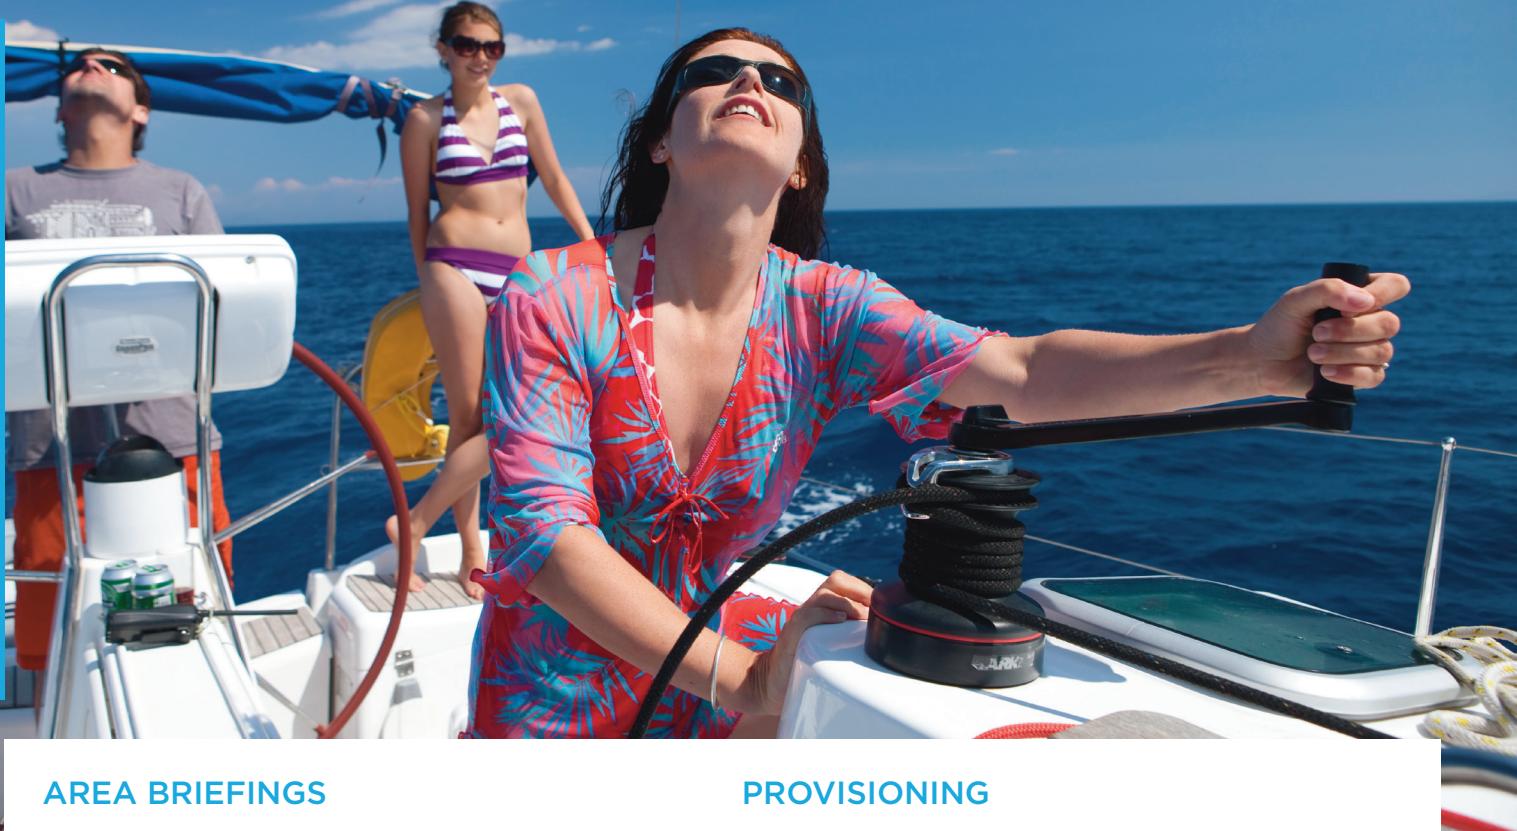

Your Charter Agreement is then authorised by the Port Police against our yachts name, and your boat documentation. Once this has been completed, they will be ready to be collected from the office.

EMBARKING TIME

Your official boarding time, as per your charter agreement, is **18:00**. It has been set to allow us to turn around your yacht. This includes cleaning it inside and outside, and carrying out our weekly maintenance checks to prepare it for your charter. We will endeavour to get you on board earlier than this whenever possible.

WHAT TO DO WHILST WAITING FOR YOUR BOAT

- Enjoy the marina pool located close to our office
- Have a relaxing lunch in one of the many cafes and restaurants nearby
- Plan your provisioning
- Visit the Venetian Ship Yard and take a walk around the villages of Gouvia and Kontokali
- Relax on Gouvia Beach which is only a short walk North of the marina

AREA BRIEFINGS

We are happy to provide you with an area brief to assist you in planning your sailing itinerary for your holiday. Whilst it is not compulsory to attend we always recommend it, particularly to those who have not sailed from Corfu before. You will be informed of the time for the briefing on the check-in. Skipper and first mate only at the briefing due to the limited space.

BOAT BRIEFINGS

Once you have boarded your boat, a technician will come aboard and explain all operating systems to you. This will include the electronics and safety equipment. Please follow and sign off the boat briefing list to ensure you are familiar with everything onboard your yacht. It is important you are aware of the location of all safety equipment (lifejackets, harnesses, first aid kit, fire extinguishers, fire blanket and tool box) before departure.

VHF COMMUNICATION

VHF Sunsail Base channel 10 within Office hours. For other cases please contact Gouvia Marina Channel 69.

PROVISIONING

If you have ordered provisioning online via our provisions website then your provisions will be taken directly to your yacht. All online orders are sourced from the "New Super Mini-Market" located within the marina and are delivered once your yacht has been prepared for you.

Don't worry if you missed the date for online orders-the Mini-Market is well stocked and there are also AB Supermarkets just outside the marina (pronounced AV). AB is located close to Kontokali Village adjacent to the large signal junction on the main road access to the marina. It is approximately 10 min walk from our pontoon. A return trip by taxi from AB is around €20, and they provide a delivery service as well. Just quote the name of your yacht and that you are berthed on Floating Pontoon L. Make sure you confirm a delivery time.

AB also allow you to bring the trolley to the marina, but we advise against it.

TROLLEY CARE

Trolleys on the dock are dangerous to our yacht, the environment and your weeks provisioning. Our pontoon is a floating pontoon and it is very susceptible to swell created from passing yachts which results in trolleys rolling off the pontoon and into the sea. If you are taking a trolley into the pontoon please keep hold of it whilst other crew members unload it. Immediately after you have unloaded your trolley please remove it from the pontoon.

If your trolley falls off the pontoon you will incur a €20 cost of removal by diver. If it damages your yacht, or an adjacent yacht you may be liable for any repair costs.

Sunsail Corfu cannot be responsible for any loss or damage if you choose to bring a trolley on to the pontoon.

LUGGAGE

While waiting to board please leave your large luggage in the designated area. This ensures free movement for everybody. Please do not take your luggage down to the pontoon prior to boarding. We will be busy preparing the fleet and we require the room to safely manoeuvre around the pontoon whilst doing this.

In addition, Pontoon L is a floating pontoon that is very susceptible to swell from other yachts which pass by when entry and egress of the marina. This swell can cause your bags to fall off the pontoon and into the water.

BEFORE LEAVING THE BASE

Please make sure that you have your boat papers on board and stowed in a safe, memorable place. We recommend that you put them in your navigation table.

BOARDING

As soon as your yacht is ready we will let you know. If you are away from the base, please call in to the reception area to let us know once you have returned. We will then personally board you.

YOUR TIME. YOUR ADVENTURE. USE THE BEST OF YOUR HOLIDAY WITH SUNSAIL

STAND UP PADDLE BOARDS (SUPs)

SUPs are a great way to explore our coastline and beaches. They are light and easy to manoeuvre which makes them the ideal tool to assist in setting up your long lines ashore.

ONE / TWO PERSON KAYAKS

Our one- and two- person kayaks provide the freedom of exploration of our bays and beaches.

IF YOU DIDN'T PRE-
ORDER YOUR OPTIONAL
EXTRAS, PLEASE ASK A
TEAM MEMBER AS WE
KEEP A LIMITED STOCK
AT BASE

BOAT PAPERS & MOORING FEES

Your boat papers are an identification file for your yacht; they contain all of the documents required for you to charter one of our boats in Greece. Without the correct paperwork you and your yacht can be impounded by the Port Authority.

The best place to keep your papers is in the chart table and remove them only when asked. When you arrive at a marina or town quay, if the marina staff or harbour master collects your boat papers from you, you must remember to collect them and pay the mooring fee for your berth before you leave.

Please take care of these papers and make sure to never leave any harbour without them.

Mooring fees are some of the best in the Mediterranean if you are charged. Generally most of the ports are municipal and it is only a small charge. Here in Corfu moorings fees are very inexpensive, typically 5 - 7 €, however, the private marinas (of which there are only three in the Northern Ionian) are approximately **€60** a night for our largest boats. Pricings vary according to size.

CREW CHANGES

If there is a crew change at any time during your charter please let us know prior to your departure from Gouvia. Your crew list needs to be updated and correct at all times. We will explain how to update and change your crew list to ensure that it is correct when it is inspected by the Port Authority and so that you are fully insured during your charter.

WHEN YOU RETURN TO GOUVIA

We have VHF radios that operate on a line of sight. Once you have passed through the first set of buoys in the marina channel please call us using your ships VHF. This places you in line in the mooring queue. Failure to notify us of your arrival could result in you waiting longer than normal. We will then provide you with mooring instructions.

Please listen carefully to your mooring instructions and do not proceed to the pontoon unless you have had a permission from a member of the Sunsail Corfu team as we may be dealing with an issue on the dock.

Your mooring instructions will take into account the weather conditions on the day and the handling factor (prop walk / windage) of your boat, so follow them carefully to make sure that the last manoeuvre of your holiday goes well.

On return you must refuel your yacht. If you have pre-paid, we will have already informed the fuel dock.

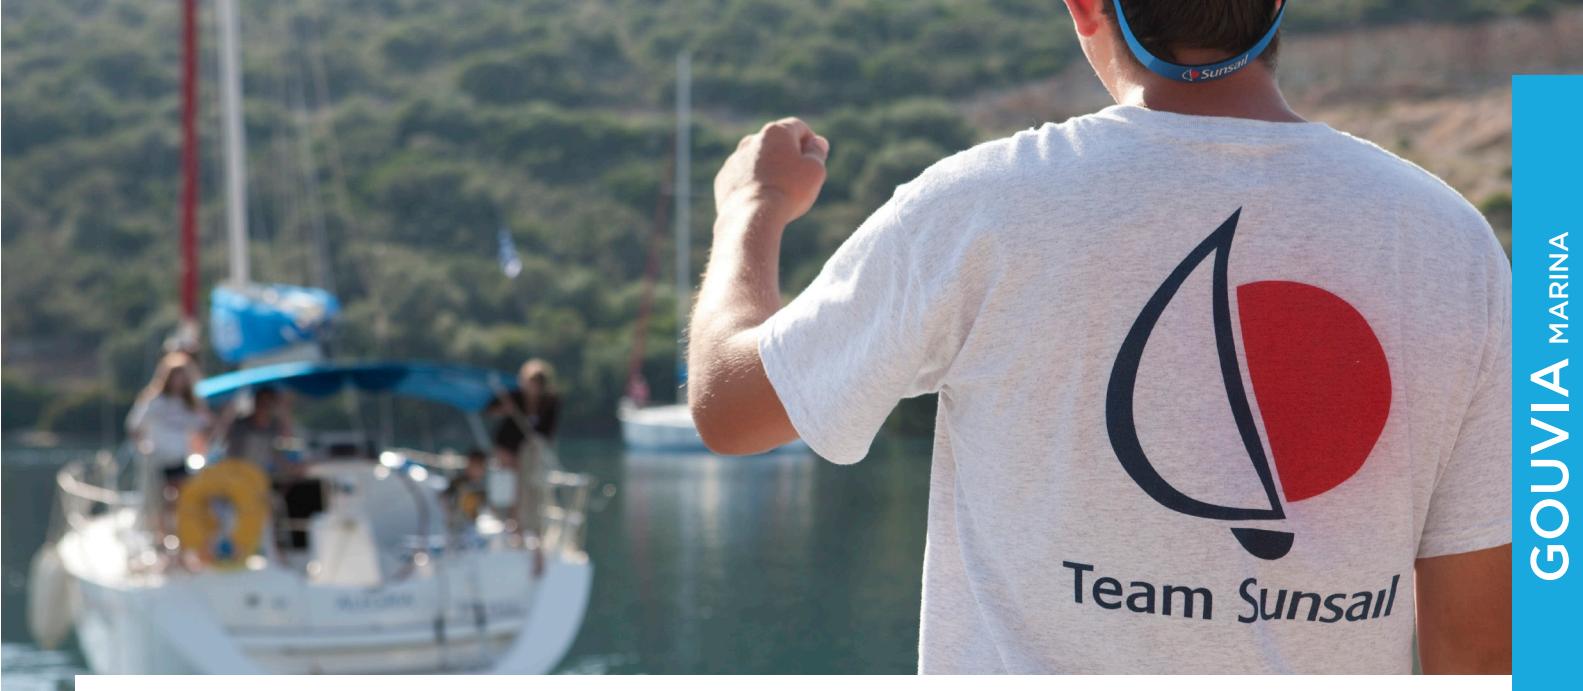

REFUELING

The fuel dock is located close to the marina entrance. You will see it off your starboard bow as you pass through the second set of buoys on your return to the pontoon. The fuel dock closes at 17:00 and it can get very busy so we always recommend that you arrive and leave plenty of time to refuel. Once you advance forward to the fuel dock they will direct you where to park and provide their own mooring lines.

Aim to return to Gouvia to allow plenty of time for you to refuel and be debriefed ahead of your final evening.

You must depart your yacht by 09:00 on the last day of your charter.

YACHT DE-BRIEF

Once you are secure on the pontoon you will be fully debriefed on your yacht by one of our technicians. The de-brief is very important as it enables us to ask if you have encountered any problems with the boat or broken anything during the trip. This will ensure that on our very busy turnaround day the boat can be made ready for the next guests.

CUSTOMER SERVICE DE-BRIEF

After the Yacht De-brief, one of our Customer Service Representatives will also come on board to run you through the final stages of your check out. During this we will also be able to arrange your taxi transfers and collect your navigational equipment. You will also be kindly asked to fill out our Customer Service Questionnaire that help us to tailor our service to each of our guests. Upon completion please hand it back to us and we will then be able to return your Yacht Damage Waiver Agreement.

BEFORE YOU LEAVE YOUR BOAT

Please ensure:

- Your boat papers are returned to one of our Customer Service Team
- Your questionnaire has been completed and returned to one of our Customer Service Team
- Water tanks have been refilled
- Sheets and towels are placed in pillow cases and left in the cockpit.
- All rubbish has been removed and disposed of in marina bins.
- Dishes have been washed and stowed
- All personal possessions have been removed; please check thoroughly as items are often left onboard
- All provisioning has been placed on the gallery top or saloon table for removal
- Navigation equipment; including all charts and pilot books, have been returned
- All hatches are closed
- The keys have been left in the chart table
- Your transfer has been arranged with our Customer Service Team

USEFUL INFORMATION

THE LOCAL AREA

Shopping

Shops in Greece tend to be open from 9am-1pm and in the evening from 5pm-8pm. Special purchase include lace, jewellery, metalwork, pottery, garments and knitwear, flokati rugs, leather goods, local wines and spirits. In the Northern Ionian, Paxos is the centre for luxury and local handicrafts.

Paxos also specialises in the production of Olive products sourced from the olive trees that grow all over the island. Gifted by the Venetians the olive trees were introduced to the locals as a commodity of great value and now a days they feature in the majority of cuisine served on Paxos as well as being included in natural beauty products. The olive oil produced on Paxos is some of the best produced in Greece and it should be sampled whilst visiting this area. Indeed many of our guests leave Paxos wishing they had purchased bigger quantities due to its distinct and unique flavour.

Visitors should be aware that many 'antiques' sold to tourists are fake; it is illegal to export any item of real antiquity without a special permit from the Export Department of the Ministry of Culture.

Restaurants and Tipping

There is a good choice of tavernas and restaurants throughout our cruising areas. Our team can advise you of their whereabouts.

Tipping is standard and expected in all restaurants and bars and for other services undertaken during your holiday. The rule of thumb is generally 10-15 percent of the amount charged. We advise you to tip according to quality of service.

CURRENCY & CREDIT CARDS

The currency in Greece is euros. Money changing facilities are present in the majority of towns, although, they are not that readily available off the beaten track. Money changing should be done either with cash or credit cards. Credit cards are rarely accepted, with most local tavernas accepting only cash.

ATM machines are available in Gouvia and Corfu Town. Banking hours are mostly Mon-Thurs from 8am-2.30pm, and Friday 8am-2pm.

LANGUAGE - IT'S ALL GREEK TO ME!

The Greek alphabet is made up of 24 letters and diacritical signs starting at alpha (α) and ending at omega (Ω). Below are some words and phrases that you will find useful whilst chartering with us. To help you learn we have included a phonetic spelling alongside the Greek.

| | | |
|-----------------------------|------------------------------|--------------------------------|
| Yes | Ναι | neh |
| No | Οχι | och-ee |
| Please | Παρακαλώ | para-ka-lore |
| Thank you | Ευχαριστώ | ef-ha-ri-stoe |
| Sorry / Excuse me | Συγνώμη | sig-NO-mee |
| OK | Εντάξει | en-DAK-see |
| Hello | Γειά σας | yass-ass |
| Goodbye | Αντίο | an-dio |

| Bon Appetit | Καλή όρεξη | Kal-E-orex-E |
| Can I have the bill please? | Μπορώ να έχω τον λογαριασμό? | boro nah eho ton lo-gAr-yazmo? |

FISHING AND SNORKELLING

Sea fishing is possible from the shores, from boats and even underwater and is allowed almost everywhere without a permit for personal consumption.

There is a range of snorkelling gear on board your yacht which you may wish to use. We are limited on children's sizes so if you have your own you may wish to bring them with you.

MARINAS & ANCHORING

There are a variety of moorings options here in Corfu including town quays, marinas and anchorages. In most marinas and town quays the standard method of berthing is stern-to with lazy lines or by dropping your anchor.

All the details regarding good spots, fuel stations and similar will be explained in detail on one of our area briefings.

WEATHER

The weather in the Ionian is quite predictable during the highseason, with winds blowing from the NW to WNW in the afternoons during the months from June to September. Although there will be a few occasions and locations where this varies.

There are a few places where Katabatic winds will blow off the mountains between 16:00 and 18:00, just rememberto consult your pilot book when entering a harbour or bay for information about local winds. Although these winds can be predictable, we suggest you obtain weather reports each day to be prepared for your sailing.

LOCAL WEATHER SYSTEMS

| | |
|--------------------|--|
| Maistro Winds: | NW-WNW, usuallylight F2-4; Picks up at noon. Consistent through summer. |
| Katabatics: | Wind coming off the mountains between 16:00 and 18:00. Usually F4-6; Strenghtens very locally. Also consistent through summer. |
| Spring and Autumn: | Less predictable winds. Occasional strong southerlies. Up to F7. |
| Squalls: | Thunderstorms can occur all year bur more commonly out of high season. Care should be taken for following squalls (can reach up to 40 knots) |

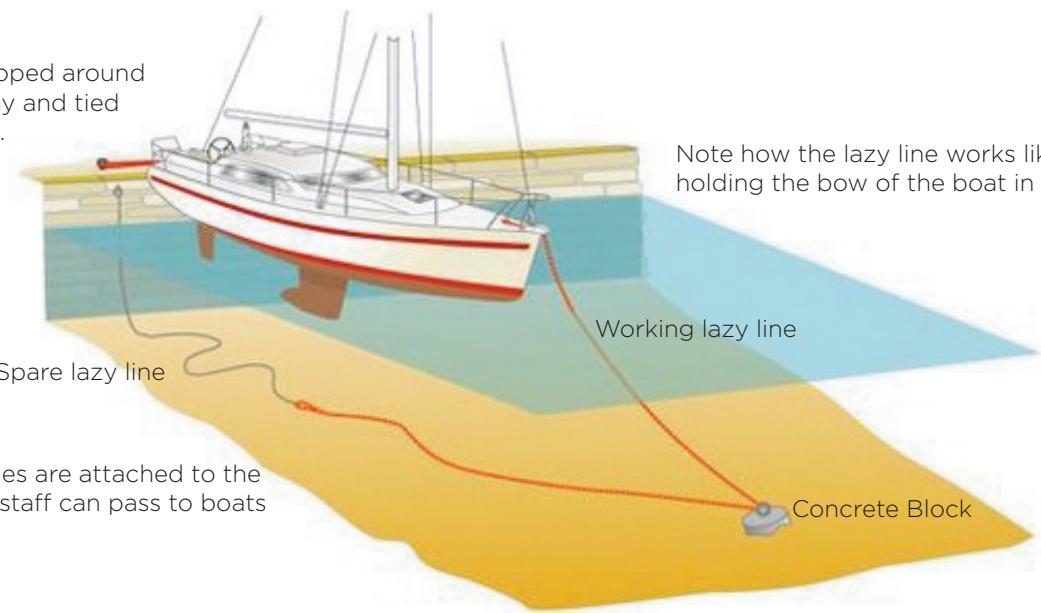

OBTAINING WEATHER REPORTS

| | | |
|----------------|-----------------------|---|
| VHF channel 16 | 09:00 / 13:00 / 19:00 | Listen for forecast area North and South Ionian |
| Internet | poseidon.hcmr.gr | meteo.gr |

BERTHING TIPS

In most marinas and town quays the standard method of berthing is stern-to with lazy lines (mooring lines).

Stern lines are looped around cleats on the quay and tied back on the boat.

Note how lazy lines are attached to the quay so harbour staff can pass to boats as they berth.

- Move your dinghy to the front of your boat and secure it (if applicable).
- Have your crew members prepare two stern lines and attach them to the cleats at the back of the boat using O800. Feed them under the guardrail so that they are ready to be thrown ashore or for a crew member to step off the transom with them when close enough to shore (never jump or leap from the boat).
- Ensure your fenders are correctly located for your mooring.
- If there are no lazy lines on the quayside have one crew member at your anchor locker preparing the anchor. They should look to the skipper for instructions on when to start dropping the anchor.
- Have a crew member at the stern of the boat ready to step off or throw the windward mooring line. This should always be secured first.
- If there are lazy lines have a second crew member positioned at the stern of the yacht waiting to be handed the lazy line once the windward line is secured. Walk with the lazy line passing it 'hand over hand' to the bow of the boat ensuring that you drop the excess rope back into the water. Pull in the slack and secure it to the bow cleat using O800.
- When in position to begin your reverse signal to your 'anchor' crew member to start to drop your anchor (if applicable). It is important for your 'anchor' crew member to be looking at you so that you can provide them with the signal to stop dropping the chain to ensure that you do not hit the quay side. The Skipper and anchor crew should communicate with agreed signals rather than shouting so as not to disturb others.
- Start reversing towards the quay remembering to take into account the weather conditions on the day and handling factors of your boat.

NAVIGATIONAL HAZARDS

The navigational hazards in our surrounding waters are discussed during the area brief. Below is a summary. (Please note that these are correct at time of writing - 02.03.2017.)

CORFU

39°46'.20N 19°57'.40E

39°39'.53N 19°51'.34E

39°.38'.08N 19°55'.00E

39°27'.08N 20°04'.00E

Stay East of the East Cardinal to avoid it. Serpa rock.

Gouvia Marina: There is a buoyed channel on entry and egress of Gouvia Marina to avoid the mud bank. NE coast of N. Vidho; There are shallows and an unmarked rock.

Ak. Levkimmis; There is a sand bar.

PAXOS

39°14'.04N 20°07'.06E

Vrak. Marmaro; Passage between Ak. Lakka and Vrak. Marmaro should only be attempted in calm weather.

39°13'.00N 20°10'.00E

Beware of the reef and shallow waters at Vk. Litharia and Ifalos Paxoi.

39°12'.04N 20°14'.06E

Beware of Ifalos Panayias.

39°11'.06N 20°11'.03E

Do not use the south entrance to Gaios due to the shallow water.

MAINLAND GREECE

39°23'.06N 20°13'.02E

39°24'.47N 20°14'.27E
39°12'.02N 20°30'.02E

39°16'.05N 20°23'.02E

There is a reef between the islands of Sivota and Nikolaso that prevents passage.
Beware of swell in Mourtos Harbour.
Beware of the shallow rocks at the entrance of 2 Rock Bay.
Beware of the shallow rocks at the North West approach to Paga

LEFKAS

38°50'.08N 20°43'.00E

Stay East of the three large yellow buoys at the North entrance of the Lefkas Bridge. Take great care in passage due to dredging and underwater works North of the floating bridge.

MEGANISI

38°41'.04N 20°45'.04E

38°41'.06N 20°44'.00E

38°39'.04N 20°44'.02E

Beware of the If Heiromiti shoal between Meganisi and Skorpions.
Beware of the Tsokari to the West of Skorpions.
There is no transit between Tsokari and Scorpions.
Beware when navigating between Thilia and Meganisi as there are sandbanks on the West of Meganisi and a rock to the SW of Thilia

KALAMOS

38°38'.09N 20°59'.04E

Beware of rock Vrak Khamiloo between Kalamos and mainland Greece

ITHACA

38°28'.08N 20°40'.07E

Beware of the reef Ay. Nikolaou on NE Ithica.
Do not use the floating pontoon in Frikes due to large ferry swell and ground chain.

38°27'.06N 20°39'.09E

MARINE ANIMALS

THE MEDITERRANEAN MONK SEAL

The Mediterranean monk seal (*Monachus monachus*) is the rarest seal species in the world and the most endangered marine mammal of the European Union. In older times, the monk seal's habitat extended all over the coasts of the Mediterranean, the Black Sea and North West Africa up to Madeira and the Azores islands.

Today, only a handful still exist, mainly in the Mediterranean Sea while in the Black Sea it is thought to be extinct. The total world population is estimated at around 700 animals and half of them live in Greek waters.

The species is protected by international Conventions and the EU Habitats Directive along with the national legislation of each Mediterranean country. Get more information on archipelagos-org.eu

Habitat

Monk seals are marine mammals who need to come out onto the shore to sleep and give birth to their offspring. Today, man's disturbing presence means they have to resort to quiet, inaccessible sea caves with a patch of beach.

Threats

Marine pollution, over-exploitation of marine resources, interaction with fisheries and disturbance through human activities, leisure activities at sea in particular, often lead to a permanent loss of habitat.

What can YOU do

Please refrain from entering remote sea caves: seals get easily frightened when they are visited, even from afar. But if you are lucky enough to see a monk seal at sea, please observe it carefully from a distance, without frightening it by making your presence felt as little as possible.

If you wish to assist the project's efforts and, more so, the monk seal itself, please note the date, time and exact location of any seal sighting, the size, colour and characteristic markings of the animal as well as its behaviour and kindly forward your note to archipelagos-greece@gmail.com along with any pictures and/or videos available.

Help us keep our seas alive for seals and man alike!

THE IONIAN DOLPHIN PROJECT (IDP)

IDP has two study areas within Ionian Sea, and whilst these are both located to the South of Corfu, we are still lucky enough to have many sightings of dolphins in our sailing area.

Below are some common species of dolphin that you may encounter during your sailing holiday with us.

Don't forget to log the coordinates when you see and identify dolphins as you will be able to upload these to the IDP website so they can be recorded: ioniandolphinproject.org/report-a-sighting

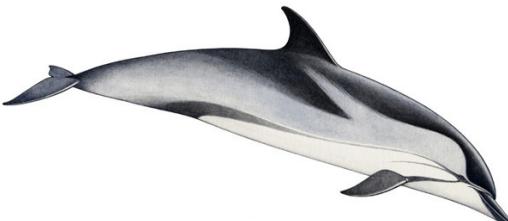

Common bottlenose dolphin:

Short beaked common:

Striped dolphin:

If you are fortunate enough to see dolphins, please be "Dolphin Smart" and follow the advice that the IDP set out:

Stay back 50 meters

Move away cautiously if dolphins show signs of disturbance

Always put your engine in neutral when dolphins are near

Refrain from feeding, touching or swimming with wild dolphins

Teach others to be **DOLPHIN SMART**

SUGGESTED ITINERARY

ONE WEEK ROUTE

DAY ONE

Kalami, Corfu

DAY TWO

Sivota, mainland

DAY THREE

SAIL YOUR OWN ODYSSEY

Set sail on a bareboat charter holiday around cosmopolitan Corfu, Homer's 'beautiful and rich land'. Our base at Gouvia Marina, just 15 minutes from Corfu Town, is widely considered a major link between the Adriatic and the Mediterranean.

Strike out for open-water sailing or Greek island hopping, stroll Corfu's Old Town or explore Gaios' Venetian architecture. Your Corfu yacht charter lets you enjoy ancient history, stunning waters and scenic ports along Greece's beautiful northern shores.

SAILING AREA

Our sailing area is North of 19,55'00E ,and East of 39,05'00N

If you are outside of our sailing area, you must let us know prior to your departure from the base. You will also not be covered by our 4.hour guarantee if outside of this area.

DESTINATIONS AROUND CORFU BASE CORFU

The island has incurred a long period of Venetian dominance and this is depicted in the uniqueness of its architecture and monuments. The old town of Corfu is included in the World Heritage List of UNESCO, while Spianada is the biggest square in the Balkans. Fortresses, palaces and picturesque villages along with tiny islands and romantic beaches combine into a unique mosaic.

Corfu was a favorite destination of Empress Elizabeth of Austria, who built there a summer palace and named it Achilleion, after Achilles, the hero of the Trojan War.

GOUVIA MARINA

Not just the biggest and only marina on Corfu, Gouvia Marina is the biggest capacity marina in Greece. Accompanied by its excellent facilities it is the perfect start and end for your charter. You are able to eat, sleep, shop and relax in Gouvia Marina and acclimatise your body to our local 'Greek Time' schedule.

KALAMI BAY

Large horse shoe shaped bay with a pebbled beach and beautiful clear water makes Kalami an ideal location for a stop over, or lunch stop. The warm sea here is perfect for swimming, snorkelling and paddle boarding and the high hills that surround it protect the bay from north westerly winds.

There are some good options for restaurants for eating and drinking on the beach and from your yacht you will be able to recognise 'The White House', which is closely linked to the Durrell's during their time spent on Corfu.

KASSIOPI

The small fishing Village of Kassiopi is located at the tip of our sailing area on the north east coast of Corfu underneath a Venetian Castle which provides a lovely walk and excellent views across the Ionian Sea.

MANDRAKI HARBOUR

Situated within the Old Venetian Fortress this harbour provides an idyllic setting for a stay and visit to Corfu town. Entry and exit to the harbour is taken via the fort crossing the large bridge over the moat. Make sure you enjoy a drink aboard your yacht and listen to the dulcet tones from the Corfu Music School resonate over the harbour before disembarking for dinner at the Yacht Club, or one of the many restaurants in Corfu Town.

NOAK

South of the Old Fortress and just around the corner from Mandraki Harbour is the Nautical Club of Corfu. The large concrete harbour wall makes this harbour instantly recognisable and its accessibility to Corfu Town makes it a very popular mooring for super yachts during the summer months.

GARITSA BAY

Drop your anchor in Garitsa Bay and you won't be disappointed with the magnificent backdrop of Corfu Town and its Old Fortress. This large bay is a popular spot to spend an evening and it is very easy to dinghy ashore to visit Corfu Town to carry out any shopping or to restock your provisions.

PETRITI

The sleepy working fishing village of Petriti is located on the east coast of Corfu. It is one of the few locations along this coastline to have a sandy beach and its gentle shallow waters provide a great location for a swim or paddle board. Drop your anchor and take your dinghy ashore to enjoy one of the tavernas located along the sea front and experience a fresh fish dish that comes straight from boat to table.....food miles equal 10 metres..... it doesn't get fresher than that!

PALAIOKASTRITA

Perhaps one of the most picturesque locations on Corfu Palaiokastrita is located on the west coast of the Island and as legend has it the last port of call for Homer before his return to Ithaka to complete his odyssey. Palaiokastrita is out of our sailing area and is only recommended for level 3 sailors.*

PAXOS ISLAND

One of the least commercial Greek Islands set in the Ionian sea. This island is truly beautiful, with scenery that makes it an artists paradise, its clear aquamarine sea and pebble beaches that have to be seen to be believed. The local people are so welcoming you feel at home straight away! A perfect place to wind down, nothing is done quickly here. Sit and drink a frappe (iced coffee) in one of the seafront cafes, watch a local fisherman bring his catch in to sell or queue in the local bakery for your fresh bread baked in a wood oven, listening to the locals arguing (they are actually only talking but speak so loud and fast it seems they are). This is the beauty of Paxos.

LAKKA

The northern most port on Paxos set in a welcoming horse shoe shaped bay flanked by high ground covered in olive and Cypress trees. The bay is almost completely sheltered and provides a bustling harbour wall and very picturesque anchorages, whilst the beach makes it an ideal location to swim and the sheltered sea invites you to paddle board.

GAIOS

The bustling port of Gaios is the biggest harbour on the island of Paxos but small enough to still remain quaint and charming. It is a very popular port of call for charter yachts, ferries and day tripper boats during the peak summer months. The town spreads along the waterfront with an array of shops, restaurants and bars to choose from.

MONGONISI

The small bay of Mongonisi is located at the very bottom of Paxos and it provides an excellent sheltered location to enjoy an evening aboard. There is a small harbour wall here and a taverna that can provide a lively evening at certain times of the week. The sheltered bay provides an excellent location to explore on your paddle board.

ANTI PAXOS

This small island lies directly south of Paxos. It is known for its beautiful beaches and explicitly clear waters. Here you have some of the finest clear blue seas in the world which makes it an excellent location for swimming, snorkelling and general relaxation. The two most popular beaches on Anti Paxos are located on its east coast and are called Vrika and Voutoumi Bay both of which provide very stunning and picturesque anchorages.

DIAPONTIA ISLANDS

To the north west of Corfu, and at the most western point of Greece, there are a collection of islands known as the Diapontia Islands. Within this range are the islands of Othoni, Erikoussa and Mathraki. Please note that these islands are outside of our sailing area and you will therefore need to sign a waiver at the base if you plan to visit them.

NISOS ERIKOUPSA

The small harbor of Erikousa is adorned with a stunning sandy beach. There are restaurants ashore where you will be able to enjoy locally freshly caught fish. You can also explore this island on foot with hiking trails around the island. The recently upgraded port makes this an ideal and comfortable stop whilst the bay is a perfect place to anchor, to have a swim and snorkel in the beautifully clear, warm waters.

NISOS OTHONI

The largest Diaponties Island is Othoni. The rough roads inland offer some unique trekking trails and being the furthest island from Corfu the picturesque bays are some of the quietest in the Ionian. You can spend your evening relaxing in one of the tavernas and enjoy the locally caught fish.

MAINLAND GREECE

PLATARIAS

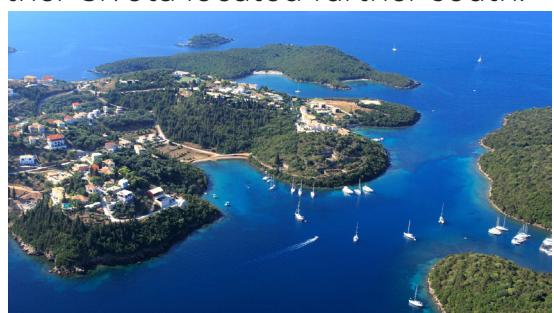

When navigating to Platarias you will pass through a natural valley hoping to discover the harbour at the end as it can be difficult to spot. Don't be fooled by this sleepy village that at first glance can appear to be deserted and which still respects the traditional siesta hours. Come early evening it turns into a vibrant village harbour.

SIVOTA MOURTOS

Referred to as Sivota Mourtos because of the huge uninhabited island (Sivota) that dominates the entrance to the vibrant town harbour called Mourtos. The locals combine these two names so as not to confuse it with another Sivota located further south. There are some beautiful anchorages around this area as well as the harbour wall of Mourtos. Enjoy a meal at one of the restaurants in Mourtos or stock up on provision at the mini-market prior to returning to your yacht. However you choose to spend your evening make sure you enjoy a drink at Mourtos' famous cocktail bar.

PARGA

Whilst this small town is located on mainland Greece, it has a distinct island feel to it and a lively and vibrant feel at all times of the day. Stretch your legs whilst ashore and take a walk up to the castle ruins for spectacular views over the harbour or relax in one of the many restaurants shore side and enjoy being in the heart of the hustle and bustle of this lively town. With beaches and ample shopping opportunities there is something for everyone in Parga.

If you want to escape the bustle of the town of Parga drop your anchor in Valtou Bay and catch the water taxi to the town.

SECRET BAYS OF CORFU

Dotted all around our sailing area are bays and idyllic anchorages that will hold, one, two or three (at a push) yachts. Charter boats in their droves sail past these bays all season long. If you take the time to slow down and look a bit closer at some of our rugged shorelines you will find it quite easy to spot these bays. They provide excellent anchorages and shelter and more frequently than not you will be the only yacht there with your private beach and a swimming pool provided by nature herself where you can while away the hours living the dream that is sailing in Corfu.

GOODBYE

SHARE YOUR EXPERIENCE

We, like you, will be sad to see your holiday and experience with us come to an end. We hope your time here with us in Corfu was excellent and we very much look forward to seeing you again.

We'd love to hear your stories about your holiday and the experience that you had with us whilst chartering in Corfu.

If you have had a great experience with us, or if you feel that there is any member of the team that went out of their way to help you to either prepare for your charter or whilst you were on charter- please do get in touch with us.

Perhaps you saw dolphins or turtles for the first time, perhaps you learned something new while sailing, or you met some of our lovely Corfiot friends. Perhaps your skipper took you to a deserted hidden beach, or perhaps you prepared a divine Mediterranean meal on board using your pre-ordered provisions.

We enjoy hearing all of your stories and sharing them with the team here at Sunsail Corfu, so please drop us an e-mail to tell us about your vacation, and include photographs or drawings. Happy faces on board our yachts make us happy, too!

PLEASE E-MAIL
